- Plans are being examined for the construction of a rice mill at Kocane designed to handle the entire Macedonian rice crop. This crop in Macedonia has 3,400 hectares assigned to its cultivation.

- Plans are being examined for the construction of a new sugar refinery in Slovenia. The sites under consideration are Verzej in the Lutomer district and Ormoz in the Ptuj district.

- A large weaving mill is under construction at Zabok in Croatia. This plant is designed to weave linen and hemp.

- The former soap factory at Mostar is in the process of being converted into a fruit and vegetable canning factory.

6. 011

A factory for fish and vegetable oil production is under construction at Zara.

- A warehouse for storing cement with 2,700 tons capacity will soon be completed at Osijek.

- The iron and steel plant in Jesenice has not been enlarged since the end of the war. Only certain minor modifications have been effected in the existing plant and workers' dwellings have been erected. The plant now employs 5,400 workers.

- 2 -

9. The plant is equipped with five open-hearth furnaces of the Siemens Martin type. [redacted] steel production is in the neighborhood of 62,000 tons per annum. 50X1-HUM

10. The director of the works is Dr. Miha Potocnik, an attorney. [redacted]
[redacted] He is [redacted] a member of the Ljudska Skupscina Slovenije, the Slovene Parliament. 50X1-HUM

11. Chemicals

The chemical factory at Most (Ljubljana) which was formerly engaged in the production of aluminum salts, has now changed over to the production of bichromate.

[redacted] Comment: Presumably potassium dichromate is meant.)

50X1-HUM

12. No details of production are given other than that production not only covers all Yugoslavia's requirements, especially in the textile and leather industries, but also provides a margin for export to the USSR.
13. The plant employs 260 workers. Owing to the unhealthy nature of the work, at least one-third of the workers are constantly on the sick list. The workers are very discontented with these conditions and many of them are seeking transfers to other industries.

50X1-HUM

14. The manager of the factory is Ivan Zealjc. [redacted]
[redacted]

15. The technical manager of the factory is Roman Modic. [redacted] he is a member of the Slovene Communist Party [redacted]
[redacted]

16. The "Zorka" chemical factory at Subotica now produces four-fifths of Yugoslavia's total phosphate requirements.

17. Electricity

An auxiliary thermo-electric power station is being constructed at Vukovar.

18. A power line is being constructed between the Osijek power station and the Borove shoe factory.

19. A power line, 72 kilometers long, is being constructed between Skradin and Zara. This line will be used for distributing electricity at points along the line.
